

Luan Felipe L. Veloso - Infinite Professional Summary

Professional Summary

I am Luan Felipe L. Veloso, a multilingual and multidisciplinary expert with extensive experience in cybersecurity, IT infrastructure, artificial intelligence, and distributed systems. My career is defined by turning complex environments into robust, secure, and scalable systems, always focused on delivering real business impact. I don't just execute tasks - I set standards, inspire teams, and generate measurable, sustainable results.

With a structured yet creative mindset, I operate at the intersection of cutting-edge technology, strategic thinking, and flawless execution. I am proactive, data-driven, and purpose-led.

Fluent in English, Spanish, German, Japanese, Korean, French, and others, I lead global projects with an international vision. I have worked with organizations across time zones and cultures, always excelling in communication, technical delivery, and innovation.

I am a born problem-solver: no challenge is too big - only poorly defined. I turn chaos into structure, ideas into solutions, and effort into lasting value.

Key Skills

Key Skills:

- Advanced Cybersecurity (SIEM, IDS/IPS, DLP, IAM, DevSecOps)
- Cloud Engineering (AWS, GCP, Azure - Infrastructure as Code, scalability)
- Infrastructure Architecture & Critical Systems Engineering
- Incident Response, Forensics & Risk Analysis

Luan Felipe L. Veloso - Infinite Professional Summary

- AI Integration in Security & Monitoring Systems
- Multilingual: EN, ES, DE, FR, JA, ZH, KO, IT, PT (fluent)
- DevOps / SRE / Agile culture with continuous delivery
- Strategic mindset with global impact orientation
- Experience as AI Trainer and Autonomous Systems Engineer

Vision & Purpose

Vision & Purpose:

I'm not just seeking a position - I seek a platform to unleash revolutions silently, where each line of code, each architecture designed, and each protection deployed represents more than work: it represents legacy.

Rapid7, to me, stands as a beacon of innovation and intelligence in the security world. I want to bring my experience and grow it with you, raising the bar and helping shape the future of cybersecurity.
